Professional Summary

Final-year Information Technology student focused on Backend Development, Software Engineering, and API development. Experienced building Python backend systems, REST APIs, authentication workflows, and automation tools using FastAPI and PostgreSQL. Passionate about scalable backend architecture, DevOps, and applied machine learning.

Technical Skills

Languages: Python, JavaScript, SQL, HTML/CSS

Backend: FastAPI, REST APIs, Async SQLAlchemy, JWT Authentication, Pydantic

Databases: PostgreSQL, MySQL

DevOps: Docker, Docker Compose, Linux, Bash, YAML, Git/GitHub, CI/CD Concepts

AI/ML: PyTorch, Scikit-learn, Pandas, NumPy

Experience

DevOps Intern - Lego Tech Pvt. Ltd. (2025)

Applied Linux fundamentals and Bash scripting; built and ran containerized services with Docker and Docker Compose; learned CI/CD concepts and server fundamentals.

Developed a production FastAPI module for a live ERP system; contributed to backend API development and QA testing alongside the production development team.

Projects

Secure FastAPI Notes CRUD API - JWT auth, async SQLAlchemy, PostgreSQL, Pydantic

Rule-Based Self-Healing Web Automation System - Selenium, heuristic recovery, Streamlit dashboard

House Price Prediction Deployment - Scikit-learn, Streamlit, real-time inference

3D Pomodoro Website - Three.js, GitHub Pages

IoT Infrastructure Automation - Arduino, real-time sensor dashboard

Education

B.E. in Information Technology, Everest Engineering College (Pokhara University), 2022-Present

Higher Secondary Education (+2 Science), Trinity International College, GPA 3.20

Leadership

Chief Content Writer, Hult Prize Organizing Committee - Team ranked Top 25% in South Asia.
